## ETERNAL CONQUEST LLC OPENS UP GEO-PARTNERSHIPS & SIGNS 1<sup>ST</sup> GEO-PARTNER

### Enabling direct benefits for communities

Reading, PA, November 13, 2017– Less than a week after being featured on the front page of the Money Section of the October 20, 2017 edition of the Reading Eagle Newspaper, Eternal Conquest LLC opens up geo-partnerships for tourism boards and supporting businesses. Designed to maximize the positive impact and benefits of Eternal Conquest – The Great War on communities and municipalities while demonstrating solid commitments, fostering demand by gaming customers, and moving to meet the 100K matching funds requirement as specified by the interested venture funding partner, Eternal Conquest LLC continues to move full speed ahead into the next phase of the venture in accordance with our venture plan.

*“This is about helping the community while raising the critical funding needed to trigger the investment by our venture partner. Once this happens, the speed at which Eternal Conquest – The Great War will be brought to market will accelerate, which will further enhance the benefits and impact of this revolutionary venture on communities and geo-partners” says Jim Aloye, the company’s founder.*

*Dr. Melanie Carr of Inner Healer Chiropractic in Bally, Pennsylvania, one of the first companies to become an Eternal Conquest Geo-Partner, says – “Once I heard about the revolutionary game Eternal Conquest – The Great War being built by a local company in our area, and had the opportunity to better understand it and see how it can be used as a tool to benefit the community, I felt that establishing a Geo-Partnership with Eternal Conquest LLC was something I had to do. There is something truly ground breaking, unique, and different about their game, and so many ways it can be used by communities and municipalities as a tool for engagement and tourism, I wanted to help my community and put it here in Bally, PA. I am excited to help design some of the exclusive content that will only be accessible by folks playing the game in Bally, PA. I think this concept is truly unique and has so much potential for use in communities across the nation.”*

The covered region, meaning the geographic region where coverage went “hot” can be seen in the image to the left.

The geographic coordinates of coverage are listed in the table to the right.

Section	Latitude	Longitude
NW	40.401538	-75.596000
NE	40.401538	-75.588100
SW	40.395893	-75.596000
SE	40.395893	-75.588100

Playing Eternal Conquest inside of this geographic boundary, as illustrated in the geo-map on the left by the yellow line, enables the player to experience geo-location specific content that is exclusive to and can only be accessed while playing the game in the specified geographic area.
